

Lemongrass

(*Cymbopogon citratus*)

Season: Spring/summer

Tender Perennial but does not tolerate cold so it may not come back each year.

Sun Exposure: Full sun

Size: 5 ft tall

Blooms: none

Maintenance Category: Low

Highlights: Rich lemon flavor and fragrance; grows in containers or in the ground.

How to Use: Culinary—leaves and bulbous stems are used in Asian dishes and soups, and the leaves can be brewed to make a relaxing tea.
