

## Tall Curry

(*Helichrysum angustifolium*)

**Season:** Spring- Perennial

**Sun Exposure:** Full sun

**Size:** 18–24 in tall and can spread to 24 in wide

**Blooms:** Produces yellow, button-like flowers in Summer.

**Maintenance Category:** Low. Good for container growing or in the ground. Is faster growing than Dwarf Curry.

**Highlights:** Sub-shrub selection features yellow blooms in summer amid finely textured, narrow elongated silver-gray leaves and evergreen mounds of pleasantly scented foliage.

**How to Use:** Excellent for flavoring a variety of dishes. Popular for sachets and potpourri. Flowers are great for drying.
